Category: Opinions

Dear Friend,

In case you missed last week's special briefing with **Dr. Neville Bolt**, Founder of the Sympodium Institute, and representatives of the Vazgen Sargsyan Military Academy, you can watch the full recording **by clicking here**.

Why this matters

Armenia is facing cascading political and security challenges — but also real openings for bold, transformative change. That is why the **Institute for Security Analysis** has joined the **Sympodium Institute** and **Vazgen Sargsyan Military Academy** to secure four seats for Armenian cadets in a prestigious postgraduate program in Strategic Communications.

Alumni of this program now shape policy, civil society, and international dialogue across Eastern Europe. Armenia's future military leaders must also be at that table.

Each seat costs **$15,600**, and time is short: classes begin in October, with funding due by **October 5** .

Click here to review the full program details with course descriptions covering 9 classes and 180 hours of instruction.

We ask you to consider a gift today **by clicking here** **or mailing a tax-deductible donation to our U.S. partner organization:**

Justice Armenia Inc.
876 Pueblo Drive
Franklin Lakes, NJ 07417

Thank you for your time and consideration.

With gratitude,

Ara N. Araz, Lilit Gevorgian and Alex Sardar

Board Members, Institute for Security Analysis

PS: **Our first challenge is changing the narrative about what is possible.** For more information, please email ara@securityandanalysis.net or visit our **website**.
