It has come to light that, contrary to their public statements of being good corporate citizens and champions of human rights, six American and British mega-corporations have been secretly lobbying the United States Congress not to recognize the Armenian Genocide.

In the American system, it is customary for corporations to lobby Congress only on taxes and trade rules related to their specific businesses. It is however highly unusual and downright shameful for corporations to do the bidding of their foreign clients.

BAE Systems Inc., Goodrich Corp., Northrop Grumman Corp., Raytheon Co., United Technologies Corp. and energy producer Chevron Corp are spending over a million dollars a week to lobby Congress.

The world-wide Armenian community cannot match this level of expenditure. We can however raise our righteous voice by signing the petition below. The collected signatures will be hand delivered and emailed to the corporate heads and key stockholders of these companies.

Make your voice heard today and sign the petition by visiting the following link! http://www.centerar.org/petition/

We urge you to forward this to as many of your contacts as possible. It is of utmost importance to spread the word and act against these denialist corporations.

The more signatures we present to these corporations, the more importance they give to our cause.

Please contact us at info@centerar.org or 818-627-2376 for any questions regarding the following press release.

Thank you,

Center for Armenian Remembrance
