23/12/2018

Friends of the late Hagop Angalatian miss him specially these days when people in Armenia and the Diaspora have regained hope for a better future in Armenia and Artsakh.

At his last public appearance (June 2008) he outlined the state level corruption with astute scientific precision, provided advice of how to combat it and made predictions that materialized.

We relive his humor, honor his fighting spirit and share his optimism.
