INVENTION OF KEROSENE LAMP

Posted on June 7, 2016 by Keghart

Category: Did You Know?

The Kerosene lamp was invented in Poland by Ignace Tukaschewicz, an Armenian whose roots went back to 12th century Cilicia. The large and prosperous Armenian community of Poland began its decline in the 17th century when the pope preached against the Armenians because they didn't follow the tenets of the Roman Catholic Church.
