It's the same poem on top and below. The difference is there are no spaces between lines on the top sample. To get rid of electronic spaces between lines you may use the word pad instead of the word document.

Dikran

What are the current realistic prospects for Armenia and Karabakh?
They range from bad to worse,
to catastrophic.
Losing a war was a severe blow.
Ignoring grim military and political conditions
and continuing to fight was far worse.
Thinking that there is an Armenian military solution
would be catastrophic.

It is time to make hard choices.
